BROKING AND GENERAL MANAGEMENT. The proper shading of houses is a matter of great importance in all cases; but in those of delicate leaded high-blooded motthose of delicate broaded to be blood for ters it becomes a viral question both for speed and compart. Mr. Bonner is separateurlar about the manuar in which his he res-are should that be always separateurla the op-eration biomedia, maining in the shop during the fitting and rading of the shoes, both of the fitting and nailing of the shoes, both of which deads he not only directs but even

when deads he all only directs but even usids in personally.

As the perfect flatness of the shoe is incressary to even and conditionly stepping.—

Mr. Boncer has produced a smeath and that like the treathle, upon where surface he places every shoe before it is mailed to the house's hear, and if the iron does not figure that the treather that the conditions and the first personal and figure and the state of the conditions are stated on the conditions and the state of the conditions are stated on the conditions and the state of the conditions are stated on the conditions and the conditions are stated on the conditions are stated horse's hear, and it the iron does not fie plumb on the store it is bearmered and filed in it a theroughly level scatace is obtained. He has also a throny about re fastering of the shoe. He makes the smith hammer the nails alternately on each side, stroke for stroke, rail by and, left and right, so that the fightening of the slace is gradual and quad on both rank. The result is highly conductive to the soundness and torginess of hoof and the freedom and firmness of sterof boof and the facedom and firmness of step

in the animal.

Mr. Bonner's horses are driven solely by himself. Occasionally a trusted man drives one or a span maior Mr. Bonner's eye, but he never adiows his precent to take his houses out for exercise most no public success to toads, tailess he is present housed. The otty exercise they have, besides that which Mr. Bonner gives than in his regular daily drives, is the monotomous "walk around," in the asimal. Gives, is the monoteness "walk around," as the minere's would call it, on the stable path, made the low before mentioned.

The food of these famous steeds is the

The food of these fancers steeds is the same as that of the most ordinary horse.— Oats are the staple of the 'with occasional 'mastics,' and now and than a little corn and carrets, in propersystem. The vehicles used by Mr. Beamer are simple, and of the ordinary road form; and, though lightly and well made, without any attempt whatever at ornamental display. Some are with and others without top, some double and others whitout top, some double and others single; but of equally plain and next. The harms sets are in kenging with the veorders single; but for epinty plans and freat. The huma-sets are in keeping with the vehicles light but strong, "ment but not gaudy," as the stying has it, with mothing to attract the gaze of the passer by. In fine, Mr. Founce keeps his horses for use and possonal enjoyment, and not in any way, threely or indirectly, for show or for pacularity gain. He has reserved to have the exists to their the world and to have the fistest tietter is the world, and so an he last

Beep-Working the soil.

I hold it demonstrated that the average rathe of hand in tillage is prelly accurately measured by the depth to which it has been thereaghly worked. That is to say: If a hand of one hundred acres, whereof one both has been tilled, and which has on that half an average depth of six inches of thoroughly worked and pulverized soil, is worth \$100 mer nere so for as it has been tilled and \$100 per nere so far as it has been tilled and \$50 per acte for the residue—in all, \$7,500 cathen the value of that farm would be increased to \$10,000 if these fifty acres of tiltraces to \$10,000 it these bity acres of itt-lage were so worked to a depth of twelve incles; \$12,500 if the depth of soil on the portion is tillage were increased to eighteen inches; and \$15,000 if it were still further cart not many Sandays since; while still inches; and \$15,000 if it were still further another, over whose conversion all the brides that no thrifty, capable farmer can increast were, a year ago, saturating their pocket handkerchiefs, and "carrying on" in a more inchediamatic way than anything recorded increase in the depth of his arable cail. There may be excentions founded in location where of the Brick Lane Branch of the Einnezer Temperance Society, of which the elect Mr. Weller's "second wentur" was such a bright and shining light—that gentleman (need I eay he is a distinguished Secator from the West?) has been for a week or more confined to his room and a dict of pickled enbance the value of their arable soil to the fined to his room and a dict of pickled enbance the value of their arable soil to the confined to his room and a dict of pickled enbance the value of their arable soil to the fined to his room and a dict of pickled enbance the value of their arable soil to the control of all least \$1.00 per core at a cost of not more than half that sum. Underdraining and substitling are each good in its place; but I have now in mind something different from these, though it may perhaps be regarded as an improvement on or perlection of the latter. I refer to an improved system of Trench Plowing.

Just before the ground froze up, several

I sm confident that this was never nearly so well long by the spade, at a cost of six times that included in the use of Dr. Grant's implements and process; which if the feath were increased to eight owen or horses, could not exceed \$50 per sere for the most thorough pulserization and commingling to a depth of faily two feet.

THE BOUTHERN CONVENTIONS.

VIRGISTA. Вісимоми, Јан. 30.

The Convention adopted four sections of the Finance committee's report. One section was amended so as to prohibit payment hereafter of any part of the state or monicipal debt incurred in sid of the rebellion.

Several propositions were introduced ne-titioning Congress to loan from one to two millions of dellars to the State to rusble planters to reenperate and pay each wages. A resolution was also offered to cut lainly offered for sale, into small tracts, and permitting the poor to meliase on credit from

NORTH CAROLINA.

Raleion, N. C., Jan. 30. In convention the Committee on the Bill of Rights have unanimously agreed to re-port the following section in regard to the public debt: "To maintain the honor and good fanth of the State entantished, the pub-lic debt, regularly confineted before and since the rebellion, shall be regarded invio-late and never be questioned, but the State shall never passing a new one debt or other shall never assume or pay any debt or obli-gation incurred in ald of insurrection or re-bellion, either expressed or implied, against the United States, or any outin for the loss or emancipation of any slaves."

> SOUTH CAROLINA, CHARLESTON, S. C., Jan. 80.

The Convention to day rejected the!; olice sent by order of the Post Communder to preserve order and appointed a committee to wait on Constall Cleiz and ascernain the cause of his aution.

GEORGIA.

ATLANTA, Ga., Jan. 30. In the Convention to day a resolution was introduced asking Congress to loan destitute planters South \$80,000,000, to be so-

cured by mortgage.

The 24th section of the Bill of Rights provides that the social status of the citizens shall never be subject of legislation.

FLORIDA.

New York, Jan. 31. A Tallabassee special says: In the is a resolution yesterday a resolution was passed requiring the Slate Treasurer to send in a report of the money in bis Lands and to hold it subject to the action of the Convention

A resolution was introduced and refer red, prohibiting any distinction on account of color in milmads, steamboate, or places of public management or instruction. The party war was continued all day.

Washington Evening Nows

A Washington special says the feeling in he House is decidedly in favor of Randall's greenback bill.

The bill extending the operations of the Freedmen's bureau another year gives power to the Secretary of War to close It in any State before that time If restoration is effected and its representatives have been admit ted to Congress.

The Chairman of the Senate Finance Committee expresses the opinion that the great question in issue about the payment of the five-twentles will ultimately be settled by the passage of a bill providing for their conversion into a long time four or five per cent.

Gen. Sheridso is expected in Washington on Friday. He had just left the train in Ohio yesterday morning, which was amashed i few mofnents after.

The debt statement for January will not present a very encouraging exhibit, as the total will be increased about twelve or Afcen millions. This increase is caused chief by the payments of warrants for army expenditures on the frontier. The prespect for a further reduction of the debt at pres ent is not good.

An international copyright bill will be ntroduced in the House to day.

There is no doubt but Judges Nelson, Clifford and Field are opposed to the Re construction laws. It is believed that fother McMahon will

soon he released from British prison. Senator Wilson has just received letters from Alabama which predict the State will

go handsomely for the Constitution and Hepulican. It is stated that Gov. Swann, the defeatted candidate for Bolted States Sonator from Maryland, is going to run for the low er House, on the workingmen's ticket, agains Mr. Phelps, Copperhead, in the third (Balti-
